SECRET OF SAVING TIME...

**SPECIAL
EDITION**

DAISY SD-WAN

AND THE SECRET OF SAVING TIME...

THE YEAR IS 2020, AND JUST BEFORE WORKFORCES AROUND THE WORLD WERE FORCED TO MOVE TO TEMPORARY REMOTE WORKING PRACTICES THANKS TO AN INSCRUTABLE NEW VIRUS, A NATIONAL BUSINESS FINDS ITSELF NEEDING A MORE CENTRALISED WAY TO MANAGE ITS WIDE AREA NETWORK (WAN). WHO WILL THEY TURN TO? WILL THE OPENING OF NEW BRANCH OFFICES BE DELAYED BECAUSE OF LEGACY IT? AND WHAT WILL HAPPEN IN THE EVENT OF A GLOBAL CRISIS...?

TIME TO CATCH UP ON ALL THESE EMAILS...

JUST A TYPICAL MONDAY MORNING FOR THE IT TEAM...

I'M ABOUT TO GO INTO A MEETING AT OUR MIDLANDS OFFICE. I'M SUPPOSED TO BE GIVING A 30-SLIDE PRESENTATION AND IT'S LOADING REALLY SLOWLY!

MEANWHILE AT HEAD OFFICE

WE'RE SEEING A MASSIVE INCREASE IN IT TICKETS ABOUT FAILED LINKS AND PROBLEMS WITH BANDWIDTH AT ALL OF OUR OFFICES. IT'S STARTING TO INHIBIT PRODUCTIVITY.

SO THAT'S EVERYTHING READY FOR THE OPENING OF OUR NEW OFFICE. LAPTOPS AND DESKS HAVE BEEN DELIVERED, JUST NEED TO GET THE USERS SET UP AND READY.

I'M CERTAIN THE INCREASE IN TRAFFIC DEMAND ON THE NETWORK WON'T CAUSE ANY ISSUES ONCE USERS ARE ALL ONLINE, IT SHOULDN'T BE A PROBLEM.

THERE'S ABSOLUTELY NO WAY I CAN ACCESS THOSE NEW ENDPOINTS AT OUR NEW BRANCH OFFICE IN TIME! I'M SUPPOSED TO BE MAKING POLICY CHANGES TO OUR KEY APPLICATIONS TOO! 17 OFFICES EACH WITH DIFFERENT NETWORKS...THERE HAS TO BE AN EASIER WAY!

IN THE IT DIRECTOR'S OFFICE

THE NEXT DAY IN THE IT DIRECTOR'S OFFICE

I REMEMBER DAISY CORPORATE SERVICES TALKING ABOUT SD-WAN, LET ME JUST GO TO THEIR WEBSITE AND MAKE AN ENQUIRY...

Your SD-WAN Roadmap
Brought to you by Daisy and Cisco Meraki

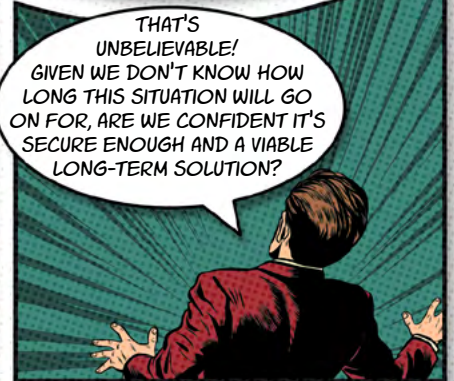

THANK YOU FOR JOINING THIS MEETING AT SHORT NOTICE. FOLLOWING THE PRIME MINISTER'S ANNOUNCEMENT WE RECOMMEND CLOSING ALL 17 OFFICES AND HAVE OUR EMPLOYEES WORKING REMOTELY ASAP. WE NEED TO FIND OUT QUICKLY IF THAT CAN EVEN BE DONE AND HOW SECURE THAT IS. WE NEED TO SPEAK TO THE IT DIRECTOR, CAN WE DIAL HIM IN?

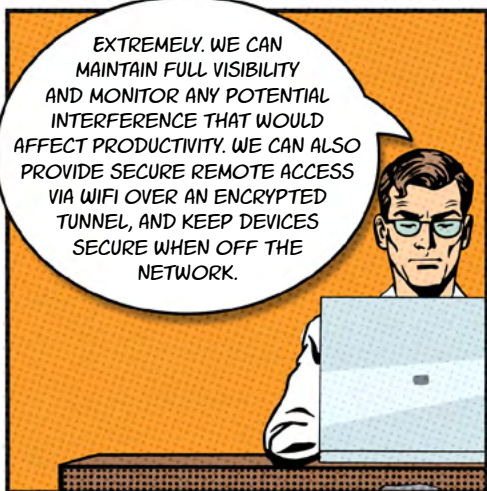

WE'RE WORRIED ABOUT NETWORK PERFORMANCE AND SECURITY ONCE EVERYONE IS WORKING REMOTELY. DO WE HAVE THE CAPACITY TO DO THIS?

WE CAN START IMPLEMENTING THIS STRAIGHT AWAY. SINCE WORKING WITH DAISY ON THE SD-WAN ROLLOUT A FEW MONTHS AGO, EVERYONE CAN SECURELY CONNECT TO THE WAN SO IT DOESN'T MATTER WHERE THEY'RE WORKING FROM - THEY GET THE SAME "IN OFFICE" EXPERIENCE FROM ANYWHERE.

THAT'S UNBELIEVABLE! GIVEN WE DON'T KNOW HOW LONG THIS SITUATION WILL GO ON FOR, ARE WE CONFIDENT IT'S SECURE ENOUGH AND A VIABLE LONG-TERM SOLUTION?

EXTREMELY. WE CAN MAINTAIN FULL VISIBILITY AND MONITOR ANY POTENTIAL INTERFERENCE THAT WOULD AFFECT PRODUCTIVITY. WE CAN ALSO PROVIDE SECURE REMOTE ACCESS VIA WIFI OVER AN ENCRYPTED TUNNEL, AND KEEP DEVICES SECURE WHEN OFF THE NETWORK.

FANTASTIC! IF WE'RE ALL IN AGREEMENT, WE NEED TO LET THE ENTIRE WORKFORCE KNOW WE'RE SWITCHING TO HOMEWORKING FIRST THING MONDAY. AGREED?

AGREED!!!

THANK GOODNESS WE WORKED WITH DAISY!

TO BE CONTINUED...

IT'S NEVER TOO LATE TO IMPLEMENT SD-WAN. WHETHER YOUR BUSINESS IS GROWING, YOU WANT GREATER VISIBILITY AND CONTROL OF YOUR WAN, OR WANT TO MAKE IT EASIER TO DEPLOY REMOTE WORKING STRATEGIES AT A MOMENT'S NOTICE, BE PREPARED FOR WHATEVER THE FUTURE HOLDS WITH DAISY SD-WAN.
