

Daisy Corporate Services Brexit Status

We have considered the potential impact of Brexit on our business and operations and we are satisfied that, given our limited direct exposure to the EU, we are able to continue to provide uninterrupted services to our customers. Following the Trade and Cooperation Agreement concluded between the EU and the UK in December 2020 (the “Agreement”) we do not expect any material changes to how our customers access our high-quality, competitive products and services. We are keeping the situation under review, however, whilst trade under the Agreement becomes a reality and we are positioned to make any changes to our business and operations we consider necessary or desirable should the need arise.
