GIGACUBE FLEXIBLE ALTERNATIVE TO BROADBAND

Overview

We can provide you with business continuity by equipping your business and employees with the facilities they need to work remotely.

Exclusively available on Vodafone, Daisy GigaCube Tariff provides you with instant 4G or 5G Internet access from wherever you are.

GigaCube is a portable wireless router transforming the 5G and 4G networks into WiFi so you can connect your laptop, mobile and other devices in seconds from home over a secure, dedicated connection.

If you have slow Internet at home or live in an area not covered by superfast broadband, GigaCube could be the answer.

With speeds of up to 1Gbps and a choice of 24-month or 36-month terms, you can effortlessly upgrade your Internet connection – and it's ready to use straight out of the box.
