# BRINGING TEAMS AND CUSTOMERS TOGETHER ON A SECURE AND RELIABLE CLOUD COMMUNICATIONS PLATFORM

Businesses within the UK have experienced huge shifts in their communications needs and are looking to adopt new technology to stay operational. Technological advances have transformed how businesses work with others, but it's not only digital transformation that has been driving this change. As of 2025, Openreach will turn off ISDN and analogue PSTN services. PSTN telephone networks will be switched off, and Voice over Internet Protocol (VoIP) networks will replace legacy PSTN services, furthermore adjusting how businesses stay connected.

## What is RingCentral MVP?

Daisy has selected RingCentral to address the key issues businesses are currently facing.

RingCentral is the industry leader in cloud communications, enabling organisations to provide exceptional customer experiences through connected, empowered and engaged employees.

RingCentral MVP (Message, Video, Phone) is an industry-leading business communications platform with integrated instant messaging, video conferencing, and cloud PBX. Empowering businesses to streamline internal collaboration and better connect with their customers.

## What does RingCentral MVP deliver?

Combining the best in UCaaS and CCaaS telecommunications, RingCentral provides cloud-based phone solutions, contact centre, video and call recording, mobility, SMS and omnichannel functionality.

RingCentral MVP meets the needs of modern businesses to embrace a future-fit technology stack, enable remote working, reduce costs and exceed customer expectations. This solution seamlessly integrates all your essential business applications and allows customers to communicate, collaborate and connect in the way they want - on any device, anywhere, anytime.

## Why RingCentral?

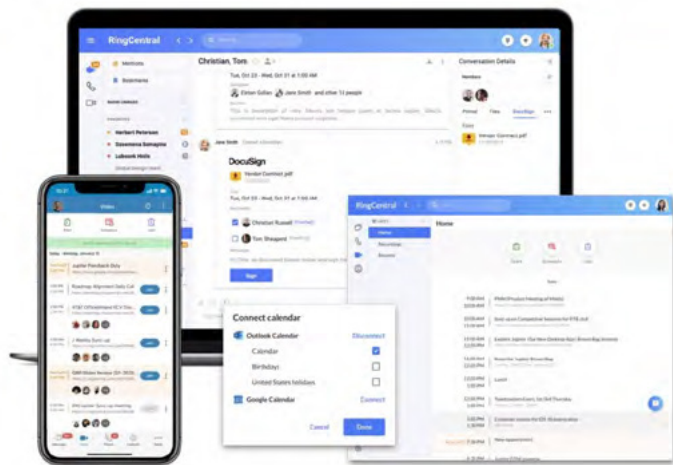

- Seamless team collaboration
- World-class security and reliability
- Simplified IT administration
- RingCentral is a leader in the 2021 Gartner® Magic Quadrant™ for UCaaS
- A leader in ESG, in 2022, RingCentral received a rating of AA (on a scale of AAACCC) in the MSCI ESG (Environmental, Social, and Governance) Ratings assessment
- A fully featured stand-alone offering, but it can also be used to complete a Microsoft Teams environment. This also provides a choice for Mitel MiVoice Business customers wanting to adopt a public cloud UCaaS solution

RINGCENTRAL  
MVP

### RingCentral MVP provides:

- A unified, collaborative hub for team messaging, video meetings, and telephony
- Enterprise-grade security and unmatched reliability with a 99.999% uptime SLA
- A global footprint across more than 40 countries
- 250+ out-of-the-box integrations with business apps and open APIs for custom needs
- Simple and centralised web-based user and system administration
- Advanced analytics and insights
- Access from anywhere on your device of choice - desktop, tablet, or mobile
- Cloud-based communications where the entire infrastructure will reside in secure, redundant, and geographically distributed data centres, which are managed 24/7 (providing carrier-grade reliability), eliminating the need for PBX hardware, wiring and maintenance

### RingCentral is recognised as a leader in the industry:

A leader in the 2021 Gartner® Magic Quadrant™ for UCaaS

Peer Insights Customers' Choice - 2021

Ranked #1 in 2020 Frost & Sullivan UCaaS RADAR
