SUPER 7

ADOPT AI IN 3 STAGES

The SUPER 7 consultancy service from Daisy, powered by Makutu, offers a structured and low-risk approach to AI implementation. It helps businesses start small, test AI feasibility, and align with long-term goals while minimising investment risk. The service emphasises rapid development, testing, seamless integration, and stakeholder alignment, enabling companies to quickly demonstrate value and adopt scalable AI solutions.

THINK BIG

7 Stakeholder Interviews

Business Understanding

Dive into the business needs of today and tomorrow, pain points and opportunities

Idea Generation

Brainstorming session to propose innovative solutions & identity candidate use cases

Feasibility Study

Assess the technical and ROI feasibility of the proposed AI solutions

START SMALL

7 Day Prototype

Prototype Development

Creation of a prototype to demonstrate the potential of the AI solution

Strategy Formulation
